

Residential property transaction volume estimate: August 2018

Duna House presents its monthly Transaction Number Estimate (DH-TE), according to which 13 869 property sale and purchase transactions took place in August 2018 countrywide.

With its 14 thousand sale and purchase transactions in August, the Hungarian real estate market has crossed the 100 thousand limit, as in the first eight months of the year 105 573 properties were sold/purchased in total. Between 2009 and 2013 the total volume of transactions was lower in relation of the whole year. This August's data is not a declining one, as the market has closed a strong summer month, similarly to the previous year, accounting for a 17% increase when compared to 2016 values.

Methodology behind DH-TE

Regardless of the time, the most important indicator of the real estate market is the yearly sale-purchase transaction number. DH-TE is an estimate published by Duna House showing interim approximate data. The estimate is based on monthly transaction number of property brokered by Duna House and the estimated market ratio of Duna House. The estimate of the actual monthly market ratio of Duna House is based on the following indicators: data published by the Hungarian Central Statistical Office on transactions among private individuals. Since the Statistical Office publishes data with a months' delay, the correction of market ratio can be carried out retroactively with refining of the estimate as well; Amount of issued Energy certificates; Subjective assessment based on other management information from the Duna House Holding.

Please note that DH-TE data is not appropriate for defining the volume of transactions brokered by Duna House, neither for estimating the business profit of Duna House Holding, or the making of any related conclusions.
